

## Committees Appointed at Board of Trade Meeting

The adjourned meeting of the Coleman Board of Trade took place on Tuesday evening with about 20 members present and President A. M. Morrison in the chair. Following the adoption of minutes of previous meeting, Mr. W. J. Burns submitted the report of his committee suggesting that the following committees be appointed and the gentlemen named to act as chairmen in each case:

Publicity Committee—Mr. E. F. Gare.  
Tourists, Railways and Transportation—Mr. A. M. Morrison.  
Municipal and Civic Affairs—Mr. F. G. Graham.  
Industrial—Mr. M. W. Cooke.  
Finance—Mr. H. C. McBurney.  
Highways and Bridges—Mr. W. J. Burns.

Wholesale—Mr. J. Hart.  
Retail—Mr. J. Allan.  
Parks and Lake—Mr. O. E. S. Whiteide.

Moved by Mr. Barnes, seconded by Mr. McKinnon that the action of the Committee be approved and that these committees be appointed as read.

It was moved by Mr. J. W. Burns, seconded by Mr. F. G. Graham that this Board meet the 2nd and 4th Monday in each month.

Moved by Rev. D. K. Allan, seconded by Mr. J. Allan that the Secretary be empowered to get notice of meeting cards printed to be mailed prior to each meeting.

### Crow's Nest Lake Park

Moved by Mr. McKinnon, seconded by Mr. F. G. Graham, that a committee composed of the President and Mr. W. J. Burns be appointed to meet the Blairmore Board of Trade on the question of popularizing Crow's Nest Lake as a resort.

The question of making Crow's Nest Lake a tourist resort equal to others in this vicinity was gone into quite fully, and it was felt that we had at our very doorstep a potential pleasure resort second to none, and that we should boost this lake in every way possible.

Moved and seconded that the Secretary be instructed to write to the Lethbridge and Calgary U.C.T. Association drawing attention to the fact that Coleman has first class hotel accommodation and that we would like them to take advantage of this fact.

Moved by Mr. Graham, seconded by Rev. Allan that 7 members constitute a quorum for all meetings of the Board.

Moved by Rev. Allan, seconded by Mr. Burns that the Secretary interview the Publicity Committee on a suitable stationery for the Board.

### To Join Red Trail Assoc.

Moved by Mr. Graham, seconded by Mr. McLean that the Secretary notify the Trans-Canada Red Trail Association that we desired to take out membership in that Association and that our annual fee would be forthcoming in the near future.

Moved by Mr. Rippon, seconded by Mr. Burns that we write the School Board drawing their attention to the possibility of serious accidents occurring due to the fact that children were permitted to leave the school grounds during recess period and play on the main streets.

### New Road Through West Coleman

Mayor Burns reported that in view of the fact that the Provincial Engineer was recommending that the new road to the West of the

(continued on Page 8)

## G. R. Powell Heads Coleman Golfers

### A Determined Effort to be Made to Develop Strong Club

The annual meeting of the Coleman Golf Club was held last night in the Council Chambers.

The officers elected for the 1926 season were as follows:

President—G. R. Powell.  
Vice-Pres.—H. C. McBurney.  
Sec. Treas.—D. E. MacLean.  
Capt.—R. G. Powell.  
Chairman Entertainment Committee—O. E. S. Whiteide.  
Chairman Greens Committee—R. G. Powell.

The Executive to consist of the above gentlemen.

The fees of the club for this season were left over till the next meeting, until it could be ascertained the amount of money which will require to be expended in putting the greens in first class shape and re-laying them.

It was felt that if necessary to induce a larger number to join the club—finances permitting—the fees be reduced, but as the fees at present are less than any other club in the Pass they were not excessive. Coleman has one of the best natural courses in the Pass, and given sufficient members we can make it much better than it has been heretofore, if everyone who is a golfer would like to become one and get behind the movement and boost for Coleman.

Quite a number of Coleman players evidently favor joining Blairmore, but why boost the Blairmore club and make their club so much larger when by a little enthusiasm and boosting we can keep our own club going.

We have an enthusiastic Board of Trade, also a Boy Scout movement, and an excellent Tennis club, cannot the same enthusiasm be applied to our own Golf club and keep it here?

There are enough golfers in Coleman to make and keep it a success. Boost for the Coleman Golf Club, and attend the next meeting which will be held as soon as estimates of cost for greens can be obtained.

### A Lesson in Community Arithmetic

There are four kinds of people in every town.

1. Those who cause DIVISION, whose QUOTIENT is strife.
2. Those who SUBTRACT from the common welfare, whose RESULT is destruction.
3. Those who passively ADD to the common good only because compelled to do so by force of law or custom, whose SUM is dependence.
4. Those who MULTIPLY their efforts by working with others and boosting for development, whose PRODUCT is prosperity.

IN WHAT CLASS IN THIS SCHOOL OF COMMUNITY LIFE ARE YOU?

### BOOST COLEMAN

The real community worker never waits the clock.

Let not the sun go down upon your failure to do something for Coleman.

### Plan Big Celebration

Extensive plans are being made for the celebration to be held at Camrose, Alberta, by the Norse people of Canada on July 3, 4, 5 and 6 next. Dr. Nordberg of Camrose, is the president of the Norse Society of Canada which is making arrangements for the affair. Many visitors from the United States and other parts of Canada are expected to attend.

## Bachelors Prove Ideal Hosts

### Some of the "13" May Have Endangered Their Freedom

The bachelors of Coleman held one of the most successful dances of the season on Friday, March 12th, in the K of P. Hall, 75 couples participating in the dancing.

The boys had every detail fully attended to. The music furnished by Messrs. Bond and Lewis was of the highest order and the lunch certainly was a treat, many of the guests expressing surprise that there were any bachelors in town who could think of such a lunch, and we are sure that if they averted along these lines the slogan "Bachelors Forever" will be changed in the near future.

The thirteen bachelors who were the hosts of the evening had a beautiful and distinguishing head gear and thanks are due Miss D. Graham for the distinctive execution of them.

We understand that it is the intention of the bachelors to hold another dance on a larger scale in the Opera House next month and we are assured that if they do it will be the best dance ever held in the Pass.

## Alberta Legislature

### Good Progress Made With Legislation—Two Days Spent in Spray Lakes Debate—Public Accounts Show Province in Healthy Financial Condition

(By John Mackenzie)

During the past week the Alberta Legislature has made progress with a number of Bills on various subjects.

### Spray Lakes Power

In addition the Spray Lakes situation was discussed for two days, resulting finally in the passage on Thursday evening of a resolution stating that the House was of the opinion that the Spray Lakes development would not affect the scenic beauty of Banff National Park; that the increasing demands for power in the Province made it necessary that increased power should be immediately available; and that the Government of Canada should assign to the Province of Alberta the said water power site so that the Province might either develop the site as a public utility or effectually control and regulate the supply of power in the interests of the people.

The Opposition amendment was in practically the same terms, but omitting the declaration that the project would not interfere with the scenic beauty of the park.

### What Province Would Do

The Government was prepared, on receipt of a license, to allow the Calgary Power Company to go ahead with the building of a dam at Spray Lakes, and if afterwards the Province decided to operate the scheme as public utility to buy the dam from the company. If, on the other hand, they decided to allow the company to continue, they would be in a position to regulate the development in the interests of the people of the Province. They could not afford to have a private company, deriving its authority from the Dominion, hold such an important site. In that case the Province would have no control.

Hon. C. R. Mitchell and other Opposition speakers spoke. Mr. Mitchell claimed that the Province was responsible for the delay. They should state their intention as to whether they were in favor of public ownership or not.

(Continued on Page 8)

## Personal and Local

Mrs. Donkin and children of Winnipeg arrived on Saturday, and will spend a month amid our beautiful surroundings. Mr. Donkin is draftsman with the McDougall Co. and is assisting in the erection of the "Washer."

Mrs. Herbert of Calgary is visiting her husband who is in the employ of the McDougall Co.

The Rev. John Oliver of Bellevue is to preach in St. Paul's (United) Church on Sunday evening, March 21st.

### Say It With Flowers

When you require flowers artistically arranged for any occasion, at moderate prices, and of unequalled quality, phone No. 13, THE COLEMAN TRADING CO., LTD., agents for Franche Bros., Lethbridge.

"Where are you going?"  
"Trying to get something for my girl."

"How much do you want for her?"

### New Municipal Hospitals

Following the successful vote in favor of the establishment of a rural municipal hospital district at Innisfail, steps have been taken to commence construction of the hospital building. A vote on the establishment of a hospital district at Vulcan will be taken March 15.

The Rev. D. K. Allan certainly surprised many in the congregation and his friends when he intimated on Sunday, his intention to leave Coleman in the near future.

Rod McDonald, well known in the Crow's Nest Pass amongst the mining community, was a visitor in the Pass during the week. The new hotel just opened up at Bowler. Rod has many friends here in Drumheller and he invites them up to his new place whenever they may get an opportunity.—Drumheller Review.

### Records at Banff Broken

Attendance at Banff National Park in 1925 broke all records according to Supt. Stronach. The park revenue amounted to \$140,000 during the season, and more than 67,000 people registered at the hotels. Nearly 80,000 people passed through the east entrance of the park alone, which was 47 per cent. greater than the previous year.

The Minerva Chapter of Eastern Star are holding a whist drive and dance in the Oddfellows hall on Thursday, March 25th, commencing at 8 o'clock. All Masons, members of their families, Eastern Star and members of their families are cordially invited. A charge of 50c will be made.

A meeting of all those interested in football is being held in the G. W. V. A. club rooms on Sunday, March 21st, at 7 p. m.

### Good Revenue from Universal Phone Service

Although it cost the provincial government an investment of only \$1,900 to establish connection with the universal telephone service giving continent wide phone connection, by means of a copper circuit from Lethbridge, the government telephone department has had a revenue of \$400 a month from the service almost since its inception. The outgoing calls average 350 a month.

The report of the Provincial Coal Commission, which has been investigating the various aspects of the coal industry in Alberta during the past year, is expected to make their findings public in the course of a few days.

## Boy Scout Organization Completed—Officers Elected

A well attended meeting of those interested in forming a Boy Scout organization took place in the Council Chambers, Coleman, on Monday evening of this week. Mr. Gilbert Key-Jones occupied the chair and in a short address outlined the object and aims of the Boy Scout movement. At the conclusion of his address it was decided to go ahead and the following officers were appointed to take charge of the work of the local branch:

President—Mr. O. E. S. Whiteide.

Vice-Pres.—Messrs. E. F. Gare and A. H. O'Neill.

Commissioner—Mr. Gilbert Key-Jones.

Sec. Treas.—Mr. J. Asbridge.

Executive Committee—Revs. Father McCormick, D. K. Allan, and L. H. Nobbs, Messrs. R. Young, J. Howarth and J. Kerr together with Association's officers.

The following gentlemen offered their services as instructors for the various branches of Scout work: Mr. I. Nielson, Woodcraft; Mr. J. Karr, First Aid; Mr. G. Brown, Physical Training; Mr. Alex. Corbett, Blacksmithing; Messrs. J. Rushton and J. Asbridge, swimming.

Mr. J. Rushton, representing the St. John Ambulance Association, brought good wishes from that organization and stated that the local branch of St. John Ambulance were willing to do everything in their power to help the Boy Scout movement in Coleman.

It was finally decided to leave the appointments of additional instructors to the Association.

Two strong troops of Scouts are already in sight, with Rev. L. H. Nobbs and Mr. C. Shaw as leaders for the Anglican Church and Rev. Father McCormick leading the Catholic troop. Coleman boys desirous of joining are requested to send in their names to the above mentioned gentlemen immediately, as they are anxious to get going at full strength in a few weeks time. Sign up, and let's go, Boys!

### Thought Capsules

(Mix with gray matter and take one every 3 seconds)

Calamity makes the whole world kin.

Factionalism fades against a common enemy.

A man is no better than his thoughts of others.

The language of love is more potent than the wrangle of hate.

If you can enjoy a flower without picking it, you can glorify youth without stifling its ambitions.

Mr. and Mrs. A. M. Morrison entertained the cast of "Mrs. Temple's Telegram" after the performance in their home Wednesday night. Following a delightful midnight supper, dancing was indulged in by the guests.

The Canadian Exhibition held in the K. of P. hall under the auspices of St. Alban's Church, Wednesday, drew a large attendance both afternoon and evening and proved very entertaining and profitable to all concerned. We hope to receive a more detailed report for next week's Journal.

Little Jimmy was invited to spend his vacation at the home of his aunt who lived out of town. But strangely enough, he didn't want to go.

"She's got a new washing machine," the boy declared. "It's bad enough to wash myself by hand, but I ain't going to be washed by any machine."

## Minutes of Annual Meeting, Coleman Rod & Gun Club

The annual meeting of the above organization took place Thursday evening of last week in the Council Chambers with the President, Mayor W. J. Burns in the chair, and about thirty members present.

Order of business: Reading of Minutes of last regular meeting. Moved and seconded that these be adopted as read; Carried.

Reading of report for year 1925: The President's report showed that the club's first year had been a highly successful one. Much good work had been accomplished and proved that the club's existence was well worthwhile. 20,000 trout fry had been placed in local waters during the past year, and six fish wardens had been appointed from amongst members of the club to see that the regulations were lived up to. In addition, several fishing competitions had been put on for the benefit of the members, for which valuable prizes had been donated by local hardware merchants. Further, numerous matters of interest had been taken up from time to time by the executive, and handled in the best interests of the club as a whole. Application had been made for a much larger allotment of fry for the coming year, and recommendation had been made to the Department that several small streams in the district be closed for a number of years and be set aside for propagation purposes. Finally, the President stated that the financial report would show a balance on the right side, and that the club would look forward to another year of successful endeavor. Moved and seconded that the President's report be adopted; Carried.

Reading of financial statement: The statement showed a credit balance of \$40.10 which was highly satisfactory to the members, and it was moved and seconded that the report be adopted; Carried.

There being no unfinished business the election of officers was proceeded with.

President—Mayor W. J. Burns was re-elected for another term.

Vice-President—Mr. D. Davidson.

Secretary—Mr. W. S. Purvis.

Executive Committee—The retiring officers were all re-elected with the exception of Mr. W. N. Connelton, who had left the district, and in his place Mr. J. Boyce was elected.

It was moved and seconded that the question of fishway at McLaren's dam be again taken up, with the Government. Carried.

Moved and seconded that the secretary write the McLaren Lumber Company asking them to place flat planks on the spillway at dam to protect fish. Carried.

Moved and seconded that the secretary write Mr. R. T. Reid, asking for nets to be sent down to attempt to catch suckers from lakes, and that man be supplied to assist at the proper time. Carried.

It was moved by Mr. Boulton, seconded by Mr. Houghton, that with regard to fishing permits the secretary write the Department asking that these be sold through the Club in order that revenue from that source could come into treasury. Carried.

Moved and seconded that same fishing competitions be held this year as last and that the main prize to the value of \$12.00 be purchased by the Club and that the local mer-

(Continued on Page 8)

## MAY PROSECUTE WITNESSES IN CUSTOMS PROBE

Montreal—R. Calder, K.C., counsel for the parliamentary committee investigating the fraud charges in connection with the department of customs and excise, is prepared to initiate proceedings against witnesses who might incur the charge of perjury.

"The issue of dealing with perjury," he said, "has been very properly raised by R. P. Sparks, president of the Commercial Protective Association. As far as I am concerned I am prepared to recommend and initiate proceedings."

"The public must not get impatient," he stated, when commenting on progress. "All deep investigations start and develop slowly. Dead-end investigations usually start with a bang and end with a whimper. During the past two weeks," he continued, "the members of the committee have been securing the production of documents on which the work will largely be based. Several hundred files are now under examination and all those relevant to the scope of the inquiry will be put before the committee by the best primary evidence available."

"Some criticism has been made of what is called 'legal quibbling.' This criticism is chiefly levelled at the bar of lawyers evidence. It is most evident to any person that the rule of proof must be followed if justice is to be attained."

"It is my intention to clean up the mess raised by the Duncan report about which there has been so much curiosity, and then to bring before the committee certain classifications of customs infractions and lastly."

## Vagrant Children Of Russia Form Unions

Dondt Gange Give Themselves Union Names and Status

Moscow—Following literally the Communist slogan, "workers of the world unite," groups of vagrant children of Russia have formed themselves in local "trade unions" and "guilds."

In the Starokinsk district of the USSR, the street gamblers have organized a "pickpocket" trust, the specialty of which is evident.

In Ekaterinburg groups of homeless children have organized a "young bandit" union. Among the "unions" established by parentless children in Moscow is the "Amalgamated Brotherhood of Young Hiccup Thieves."

## Liner Will Be Scrapped

Empress of Japan Sold to Iron Merchant of Kobe

Victoria—The old Canadian Pacific liner Empress of Japan, once the fastest greyhound on the Orient run, has been sold to T. Kurematsu, of Kobe, for \$175,000 (approximately \$55,000), and will be taken to Japan to be scrapped, according to advices received here from Japan. The vessel, which had been lying idle at Vancouver for several years past, will be delivered in April or May. Kanagawa, purchaser of the ship, is a Kobe iron merchant.

## Sign Migration Agreement

Brisbane, Australia—The government of Queensland has signed the migration agreement to which the British Government is a party and under which the maximum amount of £2,400,000 (\$165,210,000) is to be allocated to the Australian states for the settlement of immigrants. New South Wales is now the only state which has not signed the agreement.

## Japan Protests Against Blockade

Peking—Taking cognizance of the violation of the 1901 protocol requiring that communication between Peking and the sea be kept open, a protest was filed, a protest with the Chinese foreign office against the blockade of Tientsin and demanded that they bring about its immediate cessation by both hostile factions.

## Miners Accept Agreement

Sydney—The miners of district 26, United Mine Workers of America, have accepted by a majority of 201 the proposed agreement with the British Empire Steel Corporation. The total number of votes polled in the referendum was 4,801.

## Noted Surgeon Dies

Vienna—Anton Freiherr Frodreich Dimmer, noted for his researches in optical surgery, died recently, aged 71. He buried his body to the Anatomical School.

## For Return Of Alberta Natural Resources

Measure Is Given Second Reading In The Legislature

Edmonton—Good news is being made with the Alberta Government's legislative programme. Over forty bills have been introduced into the house, and a number have received second reading, and have passed through committee. Many of the bills are of a non-contentious nature, being consolidations and amendments of existing statutes.

The bill providing for the transfer to the province of its public lands and minerals was given second reading on all sides of the house is unanimous in urging this measure.

The present Dominion Government owns the natural resources of the province. Premier Brownlee said that a bill embodying the agreement with the province would be introduced in the Dominion House, and he did not anticipate any serious opposition. The bill was a government measure and he had in addition received assurances of support from Opposition members. Before being passed into law it would require the assent of the Imperial Parliament, but unless other provinces objected, there would be no difficulty there.

The Alberta legislators are also unanimous in urging the Dominion to give the public utility board of the province control over charters and sales of shares. At present companies are being refused charters by the province and granted them by the Dominion.

Some measure of protection for the public is demanded by the oil boom which recently commenced in Alberta. The province is interested in railways north of Edmonton to the extent of \$25,000,000. None of these railways are paying their way.

The Edmonton, Dawson and British Columbia Railway Company was the subject of an all day debate in the house. The Liberal demanded to know what progress was being made in the negotiations for the disposal of these railways, but the government was evasive in refusing to disclose at this time the progress of the negotiations. However, they promised a statement before the close of the session.

The point pressed by the Opposition was that the people of the north country were suffering from the uncertainty caused by the delay, but government speakers said that no possible agreement could give the people bordering on the line any better conditions than at present. Furthermore, the people of the province as a whole were interested in their ultimate disposal, as well as the people of the north.

## Wheat Pool Payment

Interim Payment of About \$37,000,000 To Three Prairie Provinces

Regina—The following announcement was issued by A. J. McNeil, president of the Canadian Co-operative Wheat Producers, Limited: "The wheat pools in the three provinces, Manitoba, Saskatchewan and Alberta, are making an interim payment of 20 cents per bushel on all grades of wheat. On coarse grain a payment of six cents per bushel is made on oats and barley, ten cents on rye, and 25 cents on flax."

A result of this distribution, the initial payment on the different grades on and after March 11, will be as follows:

"Wheat, \$1.20, basis 1, Fort William; oats, 40 cents, basis 2 C.W. Fort William; barley, 54 cents, basis 2 C.W. Fort William; flax, \$1.75, basis 1 N.W. Fort William; rye, 80 cents, basis 2 C.W. Fort William."

"Approximately 190,000 cheques will be mailed from the three provincial offices amounting to a total of about \$37,000,000."

## Urges Acceptance Of Design

Winnipeg—Taking the stand that the status of naturalized Canadian citizens is endangered by the present opposition to the prize-winning memorial design, submitted by Edward Hahn, Toronto sculptor, the Canadian Club of Winnipeg urged the unqualified acceptance of the design. Hahn, who was born in Germany, has been a resident of Canada for 28 years and was naturalized on becoming a citizen.

## Druse Tribesmen Lose Heavily

Beirut, Syria—The Druse tribesmen who are fighting against the French have suffered serious losses in a tactical engagement in the environs of Damascus. The French claim to have lost only one officer and two men killed.

## Revealed By Blunder

Victoria—Through a blunder in the details of a big Japanese naval construction programme were laid bare recently secret plans for a fleet from Tokyo by the liner Empress of Australia which arrived here.

## Trouble With Turkey

British Ambassador Leaves Post As Result of Action Taken Against British Interests

Constantinople—Anglo-Turkish relations took an unsatisfactory turn when Sir Ronald Lindsay, the British ambassador, suddenly departed for London. This created an air of pessimism in foreign circles.

Ambassador Lindsay returned from Ankara, whence he had gone to protest against the recent action of Turkey in closing the English high school and threatening a similar move against the British bank. It is understood that Sir Ronald told Rudi Bey, the foreign minister, that Turkey had violated the Lausanne Treaty and that he was unable to resume the Mosul negotiations unless the authorities discontinued action which was considered inimical to British interests.

The fact that the ambassador assumed an attitude of silence is interpreted as indicating that he considered Turkey had provoked a situation which could not be discussed without consultation with the British foreign office.

## MOVEMENT OF CANADIAN WHEAT CONTINUES LIGHT

Fort William—Following is the report of E. A. Ursell, statistician to the board of grain commissioners on the movement of Western Canadian grain during February.

"Conditions surrounding the marketing and movement of Canadian grain during the month of February remained almost exactly similar to those obtaining during January. The demand from European importers is quite slight, native supplies in Europe being utilized to the fullest extent possible while good quantities of Argentine and Australian wheat are arriving, which will furnish the bulk of the immediate import requirements. Beyond certain quantities of high grade wheat, necessary to millers producing strong flour, there does not appear to be any prospect of a change in the situation, for the present at least."

The movement of Canadian wheat into consignment and export channels continues very moderate in consequence. Upon the head of the lakes the rail movement to the seaboard is extremely light. The unloading of winter storage cargoes aboard at Canadian lower lake ports for movement to the seaboard for export has also been slow, although 2½ million bushels still remaining to be disposed of, while at Buffalo and other United States ports the total represents another 2½ million bushels. At Vancouver a steady shipment continues, averaging 1½ million bushels per week, and shipped each week.

"Ocean freight rates from Vancouver continue around 26 shillings per ton to United Kingdom and continent, and \$4.75 to \$5 to the Orient. The small movement from Atlantic ports, however, has made it difficult at times for buyers to obtain "bottom" cargoes and rates have fallen most markedly."

## New Chemical Element

Urbana, Ill.—Honoring the state and the University of Illinois, the newly-discovered chemical element number 61 is to be called Illinoisium.

## C. N. R. Brings Season's First British Family

Mr. and Mrs. Percy Mobey and their family of six happy children were the first arrivals this season from Great Britain under the "3,000 Family Scheme" of the British Empire Settlement Board. The family sat in a screened box, accompanied them to their new home on Vancouver Island via the Canadian National Railways. The Mobey's, who arrived in Canada about the middle of February, have taken up one of the improved farms of the Canadian Land Settlement Board near Victoria. Mr. Mobey was born in Lancashire, England. His children range from two to 15 years of age. The buildings on their new farm are ready for occupation and everything is in readiness for the spring work.

## SUBMIT OFFER TO PURCHASE BIG ELEVATOR PLANT

Regina—An agreement covering the offer to purchase the elevator system of the Saskatchewan Co-operative Elevator Company, as approved by the pool delegates at an extraordinary meeting held February 17 to 19, has now been forwarded to that company.

The complete system included in the offer to purchase comprises 451 country elevators, together with annexes, agents' houses, etc., two terminal elevators at Port Arthur, namely, Terminal No. 1 with a storage capacity of 1,200,000 bushels, and Terminal No. 2 with a total capacity of 4,500,000 bushels, the Transfer Elevator at Buffalo, New York, the company's leasehold interest in the C.N.R. Terminal at Port Arthur, which has a storage capacity of approximately 7,500,000 bushels; and company's office building in the city of Regina, together with furniture, fixtures, etc.

The value of the entire system is to be determined by a board of arbitration composed of three arbitrators. One from the pool shall select the first two arbitrators and be appointed within ten days and the third within twenty days after the Elevator Company has notified the pool of its acceptance of the offer.

The sum of \$500,000 in cash will be deposited by the pool prior to the holding of the special general meeting of the Elevator Company, and \$1,500,000 will be paid by the pool on August 1, 1925, making a total payment to the company of \$2,000,000. The balance of the purchase price will be paid in equal annual consecutive instalments of \$1,000,000, which together with interest at the rate of 6 per cent, per annum, are payable on August 1 of each year.

The pool reserves the right to pay off the whole or any part of the purchase price at any payment date before maturity without notice or bonus.

## Discuss Change Of League Headquarters

Opinion Expressed That Geneva Is Not Entirely Suitable

Geneva—Lord Cecil presided at a meeting of delegates from the dominions to the League assembly at which the situation here was discussed. A great part of the meeting was given over to the question of building a new assembly hall for the League council. This raised the whole question of Geneva's suitability as league headquarters and various views were expressed concerning the cost of living and Geneva's economic and geographic position. Several delegates spoke of the necessity of investigating whether a more suitable centre might be found.

## Sugar Shortage In Turkey

Constantinople—Turkey is suffering from a sugar shortage, which recalls the scarcity experienced in most countries during the war. Sugar bootleggers are doing a thriving business by selling to the government's favour to organize the necessary machinery for operating its recently announced monopoly of the sugar business.

## Teach Canadian History

Young Canadians Should Be Steeped In Things Canadian

Vancouver—To promote Canadian sentiment we should begin in the schools. Every young Canadian should be steeped in things Canadian as no other thing is taught. That is not being done," B. C. Nicholas, editor of the Victoria Times, declared in addressing the board of trade here. "On the broad ground of a persuasive Canadianism can this country be united," he declared. "Promotion of Canadian consciousness rests on two bases, the first, sentiment or moral and the second, material or economic." As a definite formula for creating unity in Canada, Mr. Nicholas advocated increased immigration, the cultivation of foreign trade and the waging of a "vigorous campaign of public relations in foreign countries to convince people that British Columbia and the port of Vancouver are great national assets."

## Coal Probe Was Costly

Inquiry Into Nova Scotia Mining Industry Cost About \$30,000

Halifax, N.S.—It was divulged in House of Assembly during consideration of the estimates that Sir Andrew MacDuncan, chairman of the Royal Canadian Commission who recently conducted an inquiry into the coal mining industry in Nova Scotia, received \$1,000 per month as remuneration for his services and the two other members of the commission, Major Hume Croft, of London, Ont., and Rev. Dr. H. P. MacPherson, rector of St. Francis Xavier University, Antigonish, \$750 per month each. The members of the agricultural commission which recently completed an investigation of the industry in the province gave their services free, but received travelling expenses. The total cost of the agricultural commission was \$2,000 and of the coal commission approximately \$30,000.

## Fuel Oil Tax In B.C. Illegal

Justice Morrison Of Supreme Court Hands Down Ruling

Vancouver—The fuel oil tax of one-half cent a gallon passed by the British Columbia Legislature in 1923 and entitled to a refund of \$10 million of \$20,000,000, was declared illegal by Justice Morrison of the Supreme Court on the ground that the tax is in indirect and ultra vires of the Provincial Legislature.

Although the gasoline tax of three cents a gallon, also passed in 1923 by the legislature, was not directly involved in the fuel oil tax case, the statute is analogous, and the reasoning directed against the fuel oil tax is equally applicable against the constitutionality of the other. It is generally considered that if the fuel oil tax is indirect, that of the gasoline tax is also indirect.

## FIX RATE FOR MOVING ALBERTA COAL TO EAST

Ottawa—Agreement on a tentative rate of \$9 a ton for hauling coal from Alberta to Eastern Canada was reached at a conference today between Hon. Charles Stewart, minister of the Interior; Sir Henry Thornton, president of the Canadian National Railways; E. J. Garland, D. M. Kennedy and L. H. Jelliff, representing federal members from Alberta and four co-operators. The nine-dollar rate is subject to approval by the provincial governments interested.

After the conference, Mr. Garland stated that the agreement provides for the haulage of 200,000 tons of Alberta coal, or whatever quantity can be moved between now and the time that the railway commission issues its finding on the coal rate. The hearing on this matter takes place before the commission in April. Mr. Garland said that under the agreement reached today the \$9 rate is not final. The actual amount to be paid is the out-of-pocket cost rate from the mine to the destination.

The proposed rate is to be referred to the provinces for their approval of the increase over the \$7 rate. In the meantime and until their approval is gained, the Dominion Government will guarantee the \$2 difference.

Toronto—Holding that the acceptance on the part of Ontario of the \$9 freight rate on Alberta coal proposed by the Alberta and Dominion Governments might be construed as an admission by this province that such a rate was fair and adequate, Premier Ferguson, in statement, said that such a rate could not be acceptable to the province and that such an agreement could not be entered into.

## SWEDEN CLAIMS LIFE OF LEAGUE IS ENDANGERED

Geneva—Protests by Sweden that the great powers, particularly Great Britain, were trying to build her into an agent for enlargement of the league council, formed a sensational climax to the unsuccessful negotiations to settle the League of Nations internal crisis.

From Swedish circles came the charge that Sir Austen Chamberlain had accused M. Uden, the Swedish Foreign Minister, of endangering the very life of the league by his insistent attitude against enlargement of the council beyond the admission of Germany and that the British foreign secretary had declared it was impossible to conduct negotiations when a foreign minister came to Geneva with hard and fast instructions.

M. Uden, alluding to the strong position maintained by Spain and Brazil for permanent place, pointed out that other countries seemed also to have sent delegates to Geneva with unalterable mandates. He asserted that by voting only for Germany at the present moment, he was serving the league and the cause of peace.

The Swedes asserted that the allied powers, notably France, made a powerful bid, not only for the election of Brazil and Spain, but also Poland, although Poland had not been invited, Poland being accorded a permanent seat.

## Alberta's Finances Improved

Report of Provincial Secretary Shows Surplus in Place of Deficit

Edmonton—The public accounts of the Province of Alberta, tabled in the Legislature by Provincial Treasurer Hon. R. G. Reid, show that, with an estimated deficit of \$268,175 for 1925 turned into an actual surplus of \$188,619 (as announced by Premier Brownlee during the debate on the speech from the throne), the total improvement on estimates for the year 1925 was \$556,175.

Actual revenue on income account exceeded estimates by \$309,918, while actual expenditures on income account were reduced by \$248,261 below estimated expenditure.

The total net estimated debt was increased by \$27,488 over 1924.

## Planning Change In Manitoba Liquor Act

Legislation Has Been Introduced To Tighten Up Enforcement

Winnipeg—Tightening of the enforcement of the Manitoba Temperance Act is provided for in legislation introduced in the Manitoba Legislature by Hon. R. W. Craig, attorney-general. The legislation would limit the definition of a residence to which liquor can be taken and kept, would provide for personal appearance of persons accused of violation of the liquor laws, and would provide for a government appropriation of \$100,000 for enforcement of the law, instead of \$50,000 approved by the legislature last session.

## Advocate Stricter Enforcement

Montreal Organizations Want Cheap Literature Banned From Canada

Montreal—Two local organizations, the Chambre de Commerce and the Montreal Publicity Association, took action with respect to foreign periodicals entering Canada. Indignation over what was termed the "avalanche" of cheap, sordid and pornographic literature that comes into this country from the United States was voiced by the Chamber de Commerce and the suggestion was made that a stricter censorship should be enforced.

## Treed By Wolves

Ottawa—Surrounded by a pack of wolves, two shantymen, Joseph Kingsley, 23, of Quyon, Que., and Adeline Laviolette, 43, of Ottawa, were treed three hours in a snow weather on March 3, in the woods, 85 miles north of Campbell's Bay, Ont., on the upper reaches of the Ottawa River, according to word received here.

## Portugal Offers British Warships

Lisbon, Portugal—The Lario No. 10 says Great Britain has offered Portugal four warships for £50,000, allowing for facilities for payment. The ships are not obsolete, the paper says, but the British desire to substitute more modern vessels for them.

## Town Razed By Hurricane

Vienna—Despatches to the Arbeiter Zeitung say the town of Ljewe in Bosnia was razed by a hurricane and that the inhabitants were homeless. No mention is made of casualties.

## CLEANING-UP TIME.

In the spring a housewife's fancy turns to thoughts of cleaning up. Spring is the time for taking inventory of trash piles whether they be in the alley or behind the piano. This business of cleaning up is no respecter of persons. We should be more charitable with the modern woman, however, for she is presumed to have the house tidy at all times. But not so with communities. It seems that there must be a periodical scrubbing and mopping, lest at any time we stumble and fall over our own rubbish. If neatness and personal cleanliness helps to ward success, the "altire" of a town or city attracts the passer-by, contributes to the self respect of the community and to the health and well being of its people.

An organized clean-up, fix-up, paint-up campaign is desirable. In addition, let each citizen do his part individually. The most effective committee on earth is the committee of one when it commits. When someone starts the ball of dirt-rolling it will gain momentum until it lands in the dump heap where it belongs.

## POLITICS WARMING UP.

With the Provincial elections in the offing, one begins to hear common voices in the air. The cry will be, as it was last October in the

Federal election, that these are the times that try men's souls, politically speaking. A campaign orator would be far more consistent in saying that this campaign, like every other campaign in the history of the country, is all important, but no more important—not nearly as important—than in many times past. Such a statement would not satisfy the voter-listeners who like always to be flattered into believing that their votes this time will undoubtedly save the country.

## MEXICAN BAN ON RELIGIONISTS.

Under an old dust-covered clause in Mexico's Constitution, all church property belongs to the Government, and no one has the right to administer church affairs except Mexican citizens. Until recently the statute has not been enforced. But that is Mexico's business, so long as enforcement does not amount to confiscation of alien's property or violation of foreigners' rights. Every nation is entitled to its sovereignty with respect to the sovereignty of other nations. But for religion, Mexico's attitude is far from "good business." Religion needs freedom of "excommunication" instead of restraint in excommunication. Although we have enough worries of our own to be much concerned over who rings the church bells in Mexico, we do regard the measure as a slap at civilization which can have no good consequences for the cause of spirituality.

Efficiency experts are opposing revision of the calendar into 13 periods on account of the loss of time in tearing off the extra month.

In these days of Patrioticism in the land of the free and the brave, if a fellow yells "Hip, Hip," he gets arrested before he gets to the "Hooray!"

The way for a bad man to get elected to public office is to get worse and then go in as a reformer.

Traffic laws: rules of conduct in motor transportation prescribed for the other fellow.

Getting out of debt wouldn't be so bad if it didn't mean getting out of money.

When you begin to count noses always allow double for the two-faced fellows.

The man who settles down in life usually is the kind that settles up

Where ignorance is misery 'tis folly not to get wise.

# Movement To Link Up The Various Wheat Pools Into A Close Association

An international wheat pool would be an exceedingly ambitious project. National wheat pools, themselves, are bold conceptions based on strong faith in the cooperative principle. Some, no doubt, will suggest that the necessity of the national pools should have been assured by a longer experience before there was any thought of an international pool. The organization which is being formed at the present time at St. Paul, however, is not, strictly speaking, an international pool. It is not proposed to actually put the wheat from the different countries into one pool, but rather to link up the various pools in a close association.

It is hoped to benefit from one another's experience in pool management, and it is planned to secure complete and accurate information regarding crop prospects in different countries, available grain supplies and the demand from importing countries. Then the idea is, according to pool delegates at St. Paul, to feed the grain on to the market as it is required and in such a way as to eliminate speculation and secure for the farmers in the various pools the full price which the actual condition of the world market warrants.

This is all quite intelligible and seems a natural development from the individual pools. The future of the international organization depends, of course, on the fortunes of the separate pools. Some will say that it is premature, while others consider them still in the experimental stage. The latter dwell on the fact that a wheat pool is a huge business proposition and that it is necessary to consider many factors. They say that the prevailing high prices have enabled the pools to pay the farmers a good return, as a result of which they have been well satisfied, but that if there were a serious slump in the world market and a drop in prices, things would not run so smoothly and the pool might be severely tested.

The farmers of Western Canada have been encouraged to go into the pooling of their wheat by their success in other co-operative enterprises, and they are bent on giving it a good trial. It is the farmer's own business, and whatever is eventually found to be the best plan for marketing the grain will be in the best interest of this whole country—Manitoba Free Press.

## Trying To Combat Weed Menace

Experiments in Crop Rotation Will Be Conducted In Manitoba

A definite programme of experiments in crop rotation will be launched in eleven sections of Manitoba this year as a means of combating the weed menace, according to Hon. A. E. Foran, minister of agriculture. The experiments will be conducted over a three-year period. There will be five plots of an acre each put into use in each section.

The first year one plot will be sown in grain and then planted in sweet clover. The second year the plot will be in grain and then have rye planted in the stubble following the cutting of the grain. The third plot will be sown in grain and plowed the same day as cut. Plots 4 and 5 will be sown in grain and treated to the ordinary fall plowing.

During the second year the clover and rye on Plots 1 and 2 will be cut and the ground cultivated until Oct. 15. Plot 3 will be treated the same as the previous year, and Plots 4 and 5 summer-fallowed.

Wheat will be sown in all the plots in third year and a close check kept on the yield.

Forbidden to Marry Christians  
Moslem women are not allowed to marry Christians by the terms of the modified form of the *Tales Civil Code* before the Turkish National Assembly for ratification. The law which prohibits polygamy and divorce by the mere whim of the husband declares as null marriages contracted with Christians.

Cannot Enter House of Commons  
It is interesting to note that the House of Commons is the one room in the empire within which the Moslem cannot set his foot. As he is to the throne he may listen to the commons from a visitor's gallery, but as king he is forever debarred from hearing or seeing them at work.

The deaths of passengers on British railway trains have averaged three yearly for the past 25 years. Travelling by railway seems to be safer than by bus.

W. N. L. 1520

## Saskatchewan Dairy Pool

Organization Plans to Avail itself of Act Passed Last Session

The Saskatchewan Dairy Pool will incorporate under the title "Saskatchewan Dairy Co-operative Marketing Association." This decision was reached at a meeting of the provisional directors held at Regina.

The association will be incorporated under the new act, passed at the last session of the legislature, providing facilities for the incorporation of pools without the necessity of securing a special private act of incorporation.

The directors conferred with Hon. C. M. Hamilton, minister of agriculture, and Hon. J. A. Cross, attorney-general, regarding the possibilities of organizing a province-wide dairy pool. At the close of the conference they declared they had been very favorably received by the members of the government.

It was also decided to canvass the northern part of the province with a view to according that part of the province proper representation on the provisional board of directors. It is proposed to absorb the organization known as "The Dairy Pool, Limited," which was established about a month ago to cover the Regina district.

A provincial-wide campaign for contracts will probably be under way by the end of March or early in April. The directors were in conference with Norman Clark, president of the Alberta Dairy Pool, who has given them advice regarding the difficulties to be expected in the organization of a dairy pool and how they were overcome in Alberta.

## Natural Resources Bulletin

The Economic Value of Wild Life In Canada

The natural resources intelligence service of the department of the Interior at Ottawa, says:

In addition to fur-bearing animals, so conspicuously identified with the fur trade, the Dominion is splendidly endowed with other wild life, though not commercialized in the same sense or degree, forms a national asset of estimable value. Canada possesses a wealth of game species as well as of the wild life indispensable to agriculture and horticulture. The moose, bunting grounds of Eastern Canada, the bear and mountain sheep of British Columbia, game animals, birds and fisheries in unusual variety, have given the Dominion exceptional natural advantages in its use of recreation for the hunter and the angler.

The economic value of wild life, and of the magnificent scenic resources which each year attract visitors from abroad in great numbers, have been given a threefold recognition by the Federal and Provincial Governments. In no respect has the administration of Canada's natural resources been more wisely exercised than in the liberal provision for the creation and maintenance of a system of national and provincial parks and game preserves. While these areas, covering many thousands of square miles, directly yield a generous return upon the public monies invested, they represent a factor in national well-being which cannot be fully measured or appraised by monetary standards.

## A Lancashire Colony

Move to Establish Lancashire Families On Land in the West

Lancashire traditions are to be perpetuated in Canada by a new organization, called the Lancashire Settlement Association, according to advice received from London. A considerable sum of money has already been raised. It will be used to purchase farms and equipment in Canada and to install Lancashire men and their families thereon. No attempt will be made to establish an exclusive Lancashire colony. The farms purchased will be in the same area, but separated from each other by farms occupied by old and experienced settlers on whom the newcomers can pattern themselves.

Council Must Pay Reward

An Old Country Boy law passed in 1867 when horse-hoarding was much in vogue, offered a reward of \$40 for securing the conviction of a horse thief, and as this measure had never been repealed, Constable R. J. Moore, of Lucknow, Ont., claimed the reward for capturing and convicting Elmer Danick, a lad who recently stole a Lancashire boy's hat and was hanged for the offence. The county council had no other option but to pay the toll—Tara Leader.

## Want To Keep Out Infected Plants

Canadian Council Orders Exhaustive Report On Horticultural Industry

An exhaustive report on all aspects of the horticultural industry in relation to the tariff question is to be submitted at a future meeting of the council, was ordered at the closing session of the Canadian Horticultural Council, Ottawa.

Resolutions were passed asking that the Dominion department of agriculture include a practical horticulturist on its staff to prevent the importation of infected trees and plants into Canada, also that the customs authorities more rigidly enforce the customs regulations on an effective importation of horticultural products.

A special committee was appointed to protect to the government against the free importation of fruits and vegetables.

## Overseas Settlement

Says British People Hold Too Low a View of Emigration

Preceding at a meeting of the Royal Society of Arts, Viscount Bunsen, president of the imperial Russia conference, emphasized that the British people had never treated overseas settlement from a high enough standpoint. It had not been regarded so much as an act of patriotism as an act of necessity.

Viscount Bunsen urged that propaganda should tell the truth. He did not fault with the Dominions for demanding a high standard of health, but pleaded that conditions should be thoroughly well-known and a standard fixed.

## Canadians Eating Fewer Apples

Due to Lack of Advertising Says Dominion Fruit Commissioner

Canadians are eating fewer apples than they used to, consumption having fallen to less than half an apple a day, Mr. G. E. McIntosh, Dominion fruit commissioner, says. At the same time, consumption of citrus fruits has increased. Mr. McIntosh says this is due to the advertising that oranges and lemons have been getting. The moral should be obvious, Canada cannot raise citrus fruits. If we want our producers to benefit by the money we spend for fruit, we should advertise the apple—Herald Times Star.

## Salmon Travel Quickly

One Recently Covered Nearly 1,200 Miles in Less Than Month

What salmon travel amazing distances in short periods is indicated by the journey of one fish which was traced at the southern end of Nova Scotia last June and was caught less than a month later in the Middle River, Quebec. Identification was made by means of the silver tag which had been placed in one of the salmon's fins when it was first captured. Its journey was between 980 to 1,200 miles. By means of the tags, valuable knowledge is being gained as to the habits of salmon and other fish—Popular Mechanics.

## Mexico City's Suburbs

As the ground on which City of Mexico stands was once the bed of a lake, it is not considered safe to build skyscrapers in that city. The highest building there is seven stories.

Ice-skiing, dog-sledding, skating were the high lights of the Banff Winter Sports Carnival recently concluded at the Rockies resort and they were enjoyed within a setting that has not its equal in the wide world. Some of these majestic surroundings are shown in the above photographs with snow-mantled, fire-colored mountains and the rolling cliffs that enclose Lake Minnewanka. The dog derby for the Strongheart Trophy was another of

## Mining and Agriculture

Exploitation of Minerals Opens Up Country For Farming

"It is estimated we have used more of the earth's mineral resources in the last 75 years than in all preceding time," said Charles Cammell, deputy minister of mines, in his paper on the "Influence of Minerals on Canadian History and Development" before the twenty-eighth annual general meeting of the Canadian Institute of Mining and Metallurgy at Montreal. Time and again throughout the last 75 years, Canadian development had received extraordinary impetus from mineral discoveries, Mr. Cammell declared.

Previous to the discovery of placer gold in British Columbia in 1858, that province was a wilderness occupied only by a few roving tribes of Indians. The Cariboo rush of 1859 brought the first flood of people to that country and effected a radical change in its history.

History was repeating itself in Northern Manitoba, Ontario and Quebec on perhaps a less spectacular but probably a more effective scale.

Mr. Cammell said the colonizing and civilizing influence of metal deposits was well illustrated. The exploitation of the country's mineral deposits was making it possible to open up the districts for the development of agriculture.

## Farm Accounting Made Simple

Every Farmer Should Keep a Correct Record of His Affairs

Maintaining some form of accounting is absolutely necessary if the farmer is to be sure that he is faring in the most profitable way. It is the only way to ascertain what return his farm should yield in order to make a profit over production cost, and it will take up little time yet will enable one to keep a correct record of his affairs, the department of agriculture at Ottawa has published a small account book designed to cover a year's work. It gives directions for the making of entries and the taking of inventories, and requires no special knowledge of accounting. It may be obtained for 10 cents from the Publications Branch, Department of Agriculture, Ottawa.

## Greater Butter Output

Saskatchewan Shows Increase in Production For Month of January

Creanery butter production in the province of Saskatchewan in January last amounted to 692,239 lbs., as compared with 639,359 lbs. in the corresponding month a year ago, according to a statement issued by the provincial dairy commissioner. While the increase is comparatively small, yet it is gratifying in view of the fact that the output for January, 1925, was unusually high and greatly in excess for the production of the same month in previous years.

## Wins First Case

Miss C. E. Young, who has the distinction of being the first woman counsel in a breach-of-promise action tried in a British court, has won her first case. The trial lasted two days. The plaintiff, a woman, 27, damages.

Miss C. E. Young, who has the distinction of being the first woman counsel in a breach-of-promise action tried in a British court, has won her first case. The trial lasted two days. The plaintiff, a woman, 27, damages.

All Winter Sports at Banff. The big thrills and the keen air made all those who foregathered for the sports look back on their termination with a sigh of delight. People came from Calgary and all over Alberta and from the other side of the Rockies, Vancouver and Victoria, while visitors from the United States were considerably in evidence. Great army of skiers assembled who enjoyed the glissades and ski-joring, while hockey and figure skating made its appeal to

# No Efficient Alternative Yet Devised for the Influence Of the Home Life on Children

## Farms in Hudson Bay Area

Demonstration Farms Operated Along the Hudson Bay Road

Further details of the experiments in improving agricultural products along the Hudson Bay Highway line, just issued, indicate that the policy is much broader than the recent announcement indicated.

The three demonstration farms are located at Hudson Bay Junction, Mile 127, and Mile 135. In addition to these, the department has arranged to have a full line of agricultural products grown at Mile 42, Mile 81 and at Port Nelson.

The products to be grown are wheat, oats, barley, peas, clover, grasses, turnips, carrots, mangel wurtzel, lettuce, radishes, beets and onions.

Adequate records of the progress of everything planted will be kept and in the course of a few years a large body of facts on production in the northern part of Manitoba will have been accumulated.

## Manitoba Dairy Industry

Production of Creamery Butter Shows Substantial Increase

Substantial progress was made by the dairy industry of Manitoba during 1925, as shown by the annual report of the provincial dairy branch. The production of creamery butter was 12,663,312 lbs., an increase of 1,020,208 lbs. over 1924, and in addition a considerable estimate places the butter fat shipments to the United States from Southern Manitoba at 1,000,000 lbs. for the twelve months. The total make of creamery butter last year amounted to 165,407 lbs., an increase of 24,774 lbs. over the previous year. Exports of creamery butter last year, mostly to Great Britain, amounted to 315,000 lbs., or 126,000 fifty-six pound boxes, valued at \$2,116,880.

## For Spring Work

Increased Amount of Land Ready For Cultivation in Manitoba and Alberta

According to the estimate of the general agent in charge of the Canadian Pacific Railway, land prepared for spring work in Western Canada shows an increase of 225,700 acres in Manitoba, an increase of 237,707 acres in Alberta and a decrease of 1,106,899 acres in Saskatchewan. The decline in Saskatchewan is largely attributable to the smaller amount of fall ploughing accomplished which will be remedied as soon as farmers get on the land in the spring.

## Satisfied With Definition

Dr. Samuel Johnson, distilled the Scots and took every occasion to manifest that dislike. Even in his dictionary he defined " Scots " thus: "A Scotland for men; in England for horses." He asked a Scotch friend how he liked it. "Couldn't be better," said the friend, "and you might have added that there is no food equal to it, for where you will find such horses as in England and such men as in Scotland."

There are signs of evil, but that does not mean that the eyes should be closed to the evidences of good that may be set to work. It requires or sustained effort to retain personal duty and the task lies in the hands of the parents themselves. The state is impotent. The forces for good are only dormant, not dead. There are still countless homes in which they are seen at their purest and best. The symptoms of social disease are unmistakable and the remedies can be applied. (Obeta principles is the only safe and sure rule—Daily Colonist.

Endows Monument To Eve Robert Guillen, author and para-grapher, who recently attracted considerable attention by erecting in the front lawn of his home a monument to Eve, the first woman, has applied for a \$10,000 endowment life insurance policy to be used as a trust fund in perpetuating the monument. Under the terms of the application flowers would be placed regularly against the monument, the lawn mowed, trees pruned and an annual bath with some cleaning material given the small marble obelisk.

## Bible Contains Milton's Signature

Containing the signature, "John Milton, Feb. 24, 1654," a Geneva Bible, 1586, has just been sold "entirely without reserve" for \$1,000 at a book store in London, of Leicester, at Sotheby's, London.

Milton's signature is on a piece of rough paper pasted on the inner front cover. Near it is his signature, "Elizabeth Milton, 1654," the name of the poet's third wife.

Modern civilization has, as yet, devised no efficient alternative for the influence of the home on children, that influence has been steadily on the decline. As the Bishop of Exeter has said, the decay of family life is at once the cause and the outcome of the degeneracy of national character, and character, "indefinitely more than the strength of its armaments, or the prosperity of its commerce, or the abundance of its wealth, is the security of a nation." The Roman Empire had its root in the once strong simplicity of the homes of its citizens. It fell, as the morient pages of Juvenal tell us, with the atrophy of that home-life.

The motor car, the film, and even the press, have been blamed for their part in the social evil which is evidenced in a decay of home-life. There are undoubtedly agencies at work which, collectively, not singly, have a psychological influence of a sinister character. More than anything else, however, the decay of home-life has made itself felt in the education of home-education and the taking over by the state of the care and culture of the young. The home could mould characters of the most virile kind.

The state cannot do this. It has failed in a large measure to stimulate the juvenile imagination. It has not been a character-builder. It has, to an extent, alienated the children from their homes by performance duties, which, collectively, not singly, have a psychological influence of a sinister character. More than anything else, however, the decay of home-life has made itself felt in the education of home-education and the taking over by the state of the care and culture of the young. The home could mould characters of the most virile kind.

There is another influence at work to destroy the discipline of home-life. Applied science is daily applied to the question of conveniences and luxuries, and with them the growing desire for pleasure and ease and luxury deeply affects the ordinary standard of parental life. The desire has a tendency to make the individual, not the family, the unit of life and of society. It incites selfishness, and selfishness, as nothing else, dissolves home ties.

It is here that the parents themselves are largely to blame, for, with the increase in luxuries, they do not endure hardship for their children's sake. They are too busy to be expected to take the trouble to study and to know their sons and daughters, for they realize that the welfare of the latter is being made more and more a matter for the state.

Thus, there are germs of evil at work, and it is difficult to say what the antidote should be, especially where the handicap of state-interference in so many walks of life continues to grow heavier. There is one sure antidote if it were applied and that religion, but where parents are irreligious what is to be expected of their offspring? Religion has got to resume its place in the family life if there is to be a recreating of national character. It must be "pure religion" breathing household law. Earnest, careful thought and prayer on the part of the parent can solve the problem. Now hundreds, nay thousands, of parents, are silent on the subject though influenced or indoctrinated.

There are signs of evil, but that does not mean that the eyes should be closed to the evidences of good that may be set to work. It requires or sustained effort to retain personal duty and the task lies in the hands of the parents themselves. The state is impotent. The forces for good are only dormant, not dead. There are still countless homes in which they are seen at their purest and best. The symptoms of social disease are unmistakable and the remedies can be applied. (Obeta principles is the only safe and sure rule—Daily Colonist.

## Endows Monument To Eve

Robert Guillen, author and para-grapher, who recently attracted considerable attention by erecting in the front lawn of his home a monument to Eve, the first woman, has applied for a \$10,000 endowment life insurance policy to be used as a trust fund in perpetuating the monument. Under the terms of the application flowers would be placed regularly against the monument, the lawn mowed, trees pruned and an annual bath with some cleaning material given the small marble obelisk.

## Bible Contains Milton's Signature

Containing the signature, "John Milton, Feb. 24, 1654," a Geneva Bible, 1586, has just been sold "entirely without reserve" for \$1,000 at a book store in London, of Leicester, at Sotheby's, London.

Milton's signature is on a piece of rough paper pasted on the inner front cover. Near it is his signature, "Elizabeth Milton, 1654," the name of the poet's third wife.

town should come in to the north of the present road that it was the intention of the Town Council to make the main road through West Coleman follow the present one as far as the Kane residence corner and then branch north to second street thence west to a point to meet the new road outside the town limits. Moved by Mr. McBurney, seconded by Mr. Rohlitt that this Board go on record as being in favour of this new route and that the Town Council approach the School Board with a view to acquiring sufficient ground to make the turn at the Kane corner less dangerous and a more gradual curve.

Mr. McBurney, on behalf of the finance committee asked the assistance of all members in getting outsiders interested in what the Board was attempting to do, and asked that each individual try and interest others in becoming members.

chants be asked to donate the other. Carried.

Moved and seconded that we write Lethbridge and other points to collect information re cost of operating a small fish hatchery in Coleman. Carried.

Moved and seconded that we obtain prices locally on a trap to be used for shooting competitions. Carried.

There being no further business it was moved and seconded that the meeting adjourn at 10 00 p. m. Carried.

**Alberta Legislature**

(Continued from Page 1)

Mrs. Henry and Bowen, of Edmonton, were not in favor of the Province developing the site as a public utility. Steam power was cheaper in Edmonton than Spray Lakes power would be, and there were important waterpowers in the north that should also receive consideration if any move for development as a public utility was to be made.

**Claims C. P. R. Influence**

Alex. Moore, Cochrane, said the C. P. R. was behind the Calgary Power Company, as they wished the power to electrify their line through the mountains. Whoever controlled Spray Lakes would control all the power sites on the Bow River.

The resolution was passed by a vote of 35-9. Mrs. McClung and the Independent and Labor members voting with the Government.

**The Financial Situation**

The public accounts for 1925 were laid on the table Thursday by Hon. R. G. Reid.

They showed the financial situation of the Province to be considerably improved as compared with last year, with a surplus of \$188,019.

The total assets of the Province were \$162,473,249 and the liabilities, \$83,400,190.

The revenue for 1925 was \$11,531,025 and the expenditure \$11,343,006.

The net bonded debt at the end of December was \$79,463,833.

**Municipal Legislation**

A new Municipal District Act has been before the House this week, and considerable discussion has taken place as to its provisions.

The limit of responsibility by municipalities for sick indigents in hospitals was established at \$200 per year per patient.

Labor members favored the doing away with the property qualification in municipal elections. They claimed that it was absurd that an individual could be Premier of the Province without a property qualification, and yet couldn't be a municipal councillor.

**Northern Railways**

During the week a deputation of Grand Prairie residents met the Cabinet, urging upon them that the Province settle the Royal Bank's claim on the E. D. & B.C. railway without delay, and terminate the present agreement with the C. P. R.

The Premier in reply stated that the Province would not make a settlement on this matter until they

we were sure that they had made the best deal possible. They had already saved the Province \$500,000 by delaying. They were trustees for the whole of the people of the Province, and had to consult their interests as well as those of the people in the north, as the Province had an investment of \$55,000,000 in these lines. He could say nothing further at present, but would make a statement before the end of the session.
